

FACIAL SERVICES

PRE-SERVICE INSTRUCTIONS

M I C R O N E E D L I N G

- 6 Months Prior: Suspend Accutane treatment
- 2 to 4 Weeks Prior: Avoid sun exposure if electing a service for pigmentation
- 3 Days Prior: Suspend use of active or exfoliating ingredients such as retinoids, tretinoin, benzoyl peroxide, glycolic or salicylic acids, or astringents
- 2 Days Prior: Use of an anti-viral medication for those with cold sores is recommended, including a dose on the day of service, even if a cold sore is not active
