

FACIAL SERVICES

POST-SERVICE INSTRUCTIONS

MICRODERMABRASION

ENVIRONMENT

Avoid direct sun exposure and use of tanning beds. If sun exposure cannot be avoided, apply sun block SPF 30+ UVA and UVB. Sunscreen with titanium oxide, zinc oxide provides broader protection.

BEHAVIORS

Cleansing: Application of cool compresses is permitted if feeling a temporary "wind burn" sensation. If scabbing or flaking occurs, do not pick or scrub.

Product Use: Apply a gentle, non-fragrant moisturizer for 3 to 7 days post-service, or until the skin returns to your normal. If the treatment area(s) are irritated, apply twice daily, or more. Avoid the uses of AHA, Retin-A, facial masks and scrubs, waxes, or any other exfoliating products for 3 to 7 days. Use of make-up is permitted 24 hours post-service. If treating hyperpigmentation, the use of lightening products is encouraged.

Observation: Redness, swelling, scabbing, and flaking is to be expected.
